Overview

Dynamics 365 CRM to Azure DevOps Integration

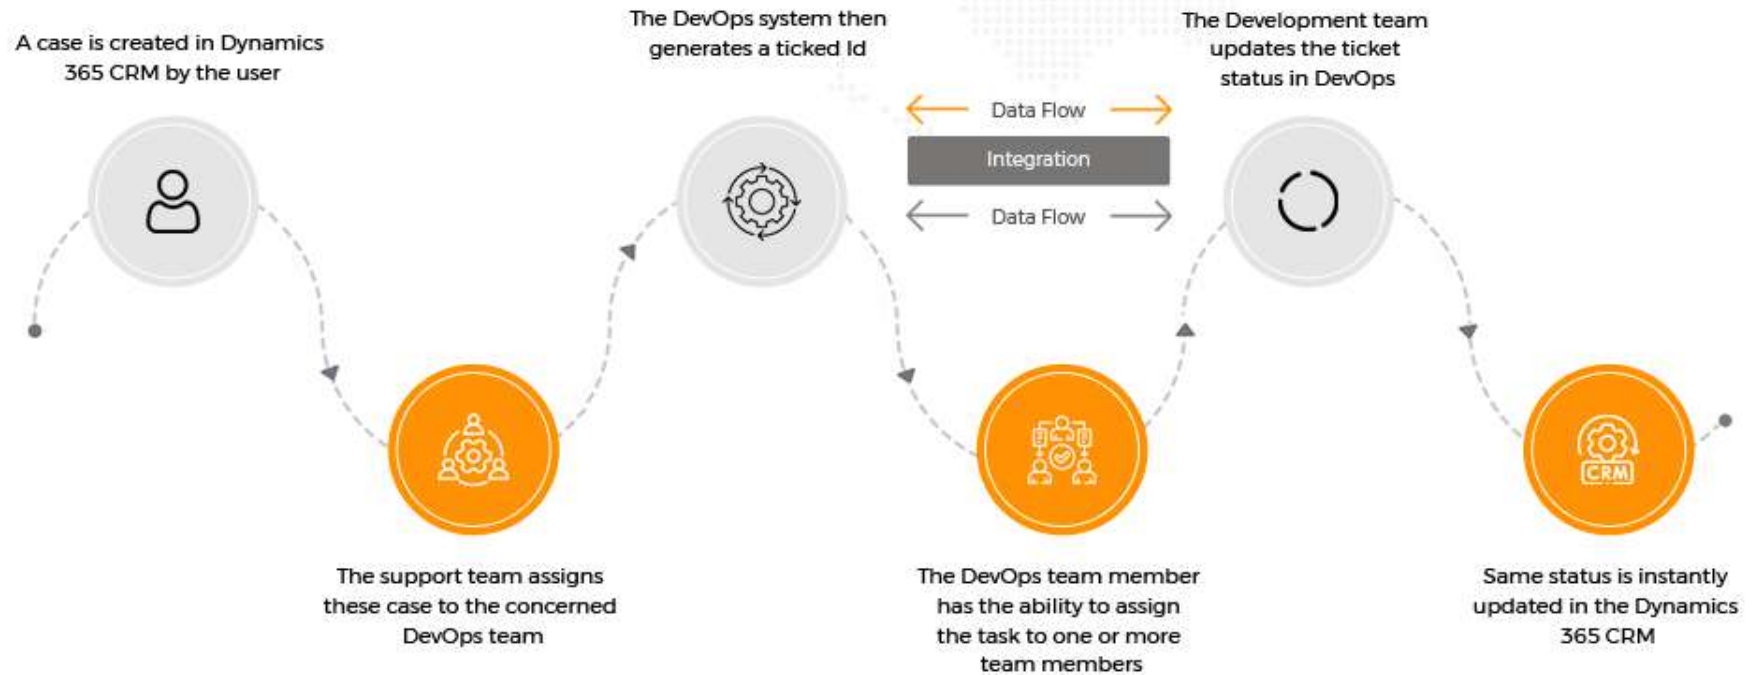

Dynamics 365 CRM to Azure DevOps Integration is a simple and efficient tool that integrates with Dynamics 365 CRM and Azure DevOps, formerly Microsoft's Team Foundation Server (TFS). It provides a seamless two way integration process for case management.

Discovery of new bugs necessitates the attention of the development team. Users can create new cases on Dynamics 365 CRM which immediately creates a new work item on Azure DevOps team. These cases are synchronized with relevant Azure DevOps team members, and users are notified of any CRM updates.

Dynamics 365 CRM to Azure DevOps Integration tool can make a significant difference in the way one can manage cases, making the process smoother, more efficient, and transparent.

Workflow

Dynamics 365 CRM to Azure DevOps Integration
